PROFILE

Passionate Software Engineer with 5 years of professional experience building web applications. Proficient in full-stack development, particularly the MEAN stack.

EMPLOYMENT HISTORY

Nov 2015 – Nov 2020   **Software Developer, Apple**   Fredericksburg, VA

Apple a Fortune 500 Medical Device and Manufacturing company in the US. As a Software Developer, I work on their eCommerce platform in an Agile environment. My daily responsibilities include:

- Participating in daily stand up meetings, led by our Scrum Master
- Utilizing the MEAN stack to enhance and maintain our eCommerce platform
- Conducting code peer reviews with other members in my team
- Participating in product demos

May 2014 – Nov 2015   **Driver, PIH Unlimited**   Gordion, PA

As a driver at PIH, I did long-haul driving for PIH

Jan 2012 – May 2014   **IT Intern, Fidelity National Financial**   San Francisco, CA

At Fidelity National Financial, I participated in an IT internship, during which I rotated between their infrastructure, data analytics, and software engineering departments. My daily activities included:

- Shadowing senior team members to get a feel for their day-to-day responsabilities
- Taking on small software development projects then presenting my work to the leadership team
- Assisting with process improvements, making suggestions on workflow changes where needed
- Participating in weekly meetings with the entire internship team
